Use Case

Foldable, portable, storable, powerful, comfortable, and always ready for the next adventure, the Sinch Step-Through electric bike is the epitome of versatility meeting ruggedness. Its compact foldable design will fit in a closet and under a desk, meaning it's almost infinitely portable! Store it in the trunk of a car or easily into a RV so you can take it anywhere with you as your very own two-wheeled companion. With 4" fat tires and a front suspension fork, the Sinch ST can comfortably take on both a relaxing cruise on pavement and a thrilling run on the trails!

“Aventon describes the Sinch ST as your Adventure Car companion. Great for those living by the coast or who spend days out camping, overlanding, and RVing and are looking to connect the dots between camp, and local experiences.”
