

**REVI BIKES**

CLASS

**2**

MOTOR POWER:  
48v 500w

*Cheetahvi*

Cheetah Mini, designed based on the original Cheetah. The dimension shrinks to fit more people and in more life scenes. The small size makes it totally different from riding a bigger Cheetah, it's agile and light-weighted. Equipped with suspension front fork, it gives a more comfortable way to ride around. It comes with fenders and headlight as standard components to make it a real plug-n-play. On the head tube, we bring a set of standard mounting points for future upgrades like front rack and basket.

COLOR

Matt Black/Leather

DETAIL

Headlight included

Adjustable Stem

Revibikes™ Hub Motor

MOZO™ Suspension
