## **51-100pcs:2000USD; >100pcs:1950USD.**

We develop a ladder pricing scheme for FREY distributors.

Considering new customer will place sample order or trial order at the beginning, after confirming our bike quality and market demands, they will increase quantity and frequency of purchasing.

In order to support our distributors better, our ladder pricing scheme will base on 6 months cumulative quantity since the date of your first order placed.

For example, if you place **an order of high end specs AM1000 5.0 5 units** at the first time, you will get price level for 5-10unit. If after 1 month, you place another order 10unit, you will get price level for 11-30unit. It means you both get 11-30unit price level for both your first order 5unit and the second order 10unit. It makes you pay less for your second order and third order and so on.

A simple example for you to understand it more clearly:

---

1<sup>st</sup>,Jan: 5unit 1<sup>st</sup> order: 3020\$ \*5unit=15100\$ total

1<sup>st</sup>,Mar: 10unit 2<sup>nd</sup> order: 2920\$\*10unit- (3020\$-2920\$)\*5unit =28700\$ total

1<sup>st</sup>,May: 20unit 3<sup>rd</sup> order: 2820\$\*20unit- (2920\$-\$2820)\*15unit=54900\$ total

1<sup>st</sup>,July: 30unit 4<sup>th</sup> order: 2720\$\*30unit- (2820\$-2720\$)\*35unit =78100\$ total

**Note: This cumulative quantity ladder pricing scheme only available for FREY brand distributor.**

We are looking for partners as FREY distributor for different market areas. More support will give to FREY partners, such as professional website for distributors, good marketing materials include good photos, videos, gifts for customers.

Distributor info listed on our home page etc.
